### The Inaugural Gala for the Schultz-Hill Foundation

took place on Saturday, Feb. 18 at the Atlantic City Hilton. The Schultz-Hill Foundation is a newly formed non-profit foundation to support the arts, history and education through donations, direct scholarships and grants in southern New Jersey. Founded by Atlantic City Councilman John Schultz and business partner Gary Hill, the inaugural event was attended by 250 guests. International recording artist, singer and pianist Michael Feinstein and Broadway star Linda Eder performed a concert and then hosted a private, lavish reception that helped raise over \$60,000 for the foundation. The pair spoke about the importance of letting young artists find themselves in their art and how a community needs to be active in the preservation and advancement of arts and history.
